A-1. **The Atlas of Ancient Rome: Biography and Portraits of the City. 2 vols.**

Carandini, A. (ed.)

2017 (Princeton U.P.) 1280 p. Hard ISBN: 9780691163475 ¥26,200

The Atlas of Ancient Rome is monumental in scope. It examines the city's topography and political-administrative divisions, trade and economic production, and social landscape and infrastructure—from residential neighborhoods and gardens to walls, roads, aqueducts, and sewers. It describes the fourteen regions of Rome and the urban history of each in unprecedented detail, and includes profiles and reconstructions of major monuments and works of art. This is the only atlas of the ancient city to incorporate the most current archaeological findings and use the latest mapping technologies. Authoritative and easy to use, The Atlas of Ancient Rome is the definitive illustrated reference book on Rome from its origins to the sixth century AD.

A-2. **A Companion to Sparta. 2 vols.**

Powell, Anton

Blackwell Companions to the Ancient World

2017:12 (Wiley-Blackwell) 815 p. Hard ISBN: 9781405188692 ¥66,500

The two-volume A Companion to Sparta presents the first comprehensive, multi-authored series of essays to address all aspects of Spartan history and society from its origins in the Greek Dark Ages to the late Roman Empire. Offers a lucid, comprehensive introduction to all aspects of Sparta, a community recognised by contemporary cities as the greatest power in classical Greece. Features in-depth coverage of Sparta history and culture contributed by an international cast including almost every noted specialist and scholar in the field. Provides over a dozen images of Spartan art that reveal the evolution of everyday life in Sparta. Sheds new light on a modern controversy relating to changes in Spartan society from the Archaic to Classical periods.
